WORKING WITH GLOBAL BRANDS

TO PRODUCE AWARD-WINNING ATTRACTIONS

FRONTGRID

The creators of

CREATING SENSATIONAL ATTRACTIONS

Fly under canopy in VR as part of a gamified, multi-sensory experience. ParadropVR™ is a proven business model, with installations in 15 countries and counting.

ParadropVR™ enables you to explore environments in a way you never could before, from imaginary to real destinations. We created the entertainment category “location-based-flying” and specialise in creating immersive experiences inspired by real world places.
